To whom it May Concern - BLM  
 In addition to this survey, I would like to remind you that New Mexico is limited in its capacity to produce water. Also its beauty lays in its Open Spaces & wildlife. There are ways to develop economically which do not involve bringing more people here with the same problem promise of real estate investment opportunities. Developers will build, make their profits & leave & the local governments will be left to deal with angry citizens. Please think long & hard about this.

Katherine Irish Henry
