Re: Albuquerque Open Space Fencing

Please allow me to introduce myself. My name is Adelina (Lina) Sosa and I grew up in the jungles of Panama. However, after moving to the United States and becoming a U.S. citizen, I have grown to love the beautiful open spaces of New Mexico. As a La Mesa resident, I have spent many hours hiking the Albuquerque Open Space, enjoying the plants and animals of this great land.

Additionally, I have been able to work with neighbors from La Mesa, Sun Dance and even Bernalillo on the fence financed by WHOA between the Santa Ana land and the BLM land. I will work equally hard to help maintain the Albuquerque Open Space fence.

I have done this work out of love for the beautiful wild horses which make this area unique. Since I am of Spanish descent I feel that I am protecting a part of my heritage. I realize that these beautiful animals have roamed this area since the time of Coronado. They have done the land no harm and they teach all of us an appreciation of both the land and our history.

Please continue to fence the southern border of the Albuquerque Open Space.

Sincerely, estor lesa Lina Sosa

Albuquerque Open Space

To Whom It May Concern:

We have lived on Calle Clenega bordering the Open Space for 4-1/2 years now and have enjoyed immensely the peace and tranquility that walking in the Open Space has offered us. A big part of the beauty of this area is the wildlife – especially the wild horses. We have enjoyed watching the horses with their babies each year and have felt a responsibility for the stewardship of these wild animals as development has encroached on their habitat.

While those of us who support the wild horses in their present environment have not been as vocal in the past as their opponents we are writing this letter to make it known to you that we, and many of our immediate neighbors, support all endeavors to keep these horses safe on the Open Space. We have supported both financially and with our time the efforts to fence areas between Santa Ana land and in Sundance Mesa to keep the horses off the roads and out of people's yards. We are also supporting the effort to fence the south end of the Open Space to keep them off the roads in the adjacent areas.

We want you to know via this letter that there is strong support for keeping these horses safe and we treasure them as a natural wonder in this unique environment we have in Placitas. Please keep this in mind when making any decisions regarding them. Thank you for your consideration

Sincerely,

July 17, 2007

Dear Doctor Schmader,

My family has lived in Placitas for three and half years. One of the most wonderful things about living in this community is the opportunity to hike and enjoy the beautiful surroundings of the quiet country life. While hiking we noticed that the Open Space land is not fenced in. This, unfortunately, has lead to all terrain vehicles, four wheel drives, and motorcycles entering the property and destroying the land for their own pleasure. In addition, there are people shooting guns off at all times of the day and evening.

I would like to request that you consider completely enclosing the Open Space area adjacent to the Placitas La Mesa subdivision with fencing, including access gates for pedestrians, signs posted that there is no access to any motorized vehicles, and no shooting signs.

We feel blessed to live here and plan on staying in Placitas for a very long time. We will help in any way to keep it safe and naturally beautiful.

Thank you for your time.

Sincerely,

ashbaugh

Dear Dr. Schmader,

My husband and I are residents of Placitas and live near the Open Space. Since moving here from Albuquerque we have enjoyed seeing the wild horses that range across BLM and Open Space land.

Recently the WHOA organization has collected donations to pay for perimeter fencing of the Open Space. We supported and have donated money towards the project. Having the fence will help prohibit motorized vehicles from the Open Space and keep the Wild Horses out of the streets and protected.

Please complete the Albuquerque Open Space perimeter fencing project in Placitas.

Dear Dr. Schmader :

As residents of Sundance Mesa, a Placitas subdivision, we live adjacent to the Albuquerque Open Space. We strongly support the completion of the parameter fencing of the Open Space and have (along with many others) made a contribution to WHOA to attain this goal.

We have derived much pleasure from the presence of the wild horses in our area and support every effort to provide a safe environment for them. They have been residents of our surrounding area for a great many years and, as part of New Mexico's history, deserve whatever protection we can provide for them.

We strongly urge you to support the Placitas Open Space Master Plan recommendation to provide this parameter fence and support WHOA's efforts to complete this project.

Dear Dr. Schmader:

As residents of Placitas who live near the Placitas Open Space, we are writing you to encourage the continuation of the perimeter fencing project around the Placitas Open Space. I understand that a few of the residents have objected to this project, but we, and the majority of our neighbors are strongly in favor of this fence.

As strong supporters of the wild horses, we feel that this fence is necessary to keep them off of the roads in the Placitas area, and to prevent the possibility of a car or other vehicle from being involved in an accident with one of the wild horses.

This fence will also help to prevent the use of off road motor vehicles on the Open Space.

We would appreciate your continued support of this fencing project.

Dear Dr. Schmader,

My wife and I are Placitas residents living adjacent to the Albuquerque Open Space who are in favor of completing the perimeter fencing of the Open Space. As called out in the 2002 Placitas Open Space Master Plan, we are anxious to see the fencing completed by WHOA for the following reasons.

- 1. Small pass through gates will greatly prohibit access to Open Space by motorized vehicles.
- 2. The fence will provide protection from stray livestock wandering out onto our streets and causing accidents or destroying landscaping.
- 3. A perimeter fence provides greater protection for the resident wild horses that have ranged the area for decades and are much loved by the residents.

Hundreds of Placitas residents feel as we do evidenced by the quick collection of \$14,000 in donations needed to complete the fence since the collection campaign began June 2nd.

We urge you to support the Placitas Open Space Master Plan recommendation to provide a perimeter fence and support WHOA's fence project to completion.

July 15, 2007

Dear Dr. Schmader:

I am writing to endorse the use of the Placitas Open Space as land to support the existing wild horse herds of the Placitas area. As a wildlife and nature photographer, I am keenly aware of the increasing rarity of wild horses in New Mexico, and indeed the entire Southwest. Placitas and Sandoval County, as well as our neighbors in Albuquerque, are extremely fortunate to have such beautiful animals living in our surrounds. These horses are exemplary of the free spirit of New Mexico, and are an important part of what makes this the Land of Enchantment. I have taken dozens of visitors and tourists to view the horses: everyone expressed their admiration for these beautiful animals. Not only are they a local treasure to many of us, they are a potential attraction for tourists to Sandoval County.

Hundreds of Placitans value having these horses as our neighbors. With the help of organizations such as WHOA, it is possible to ensure that the horses and Placitans remain good neighbors. Perhaps, in the long run, a wild horse preserve will be established nearby to provide a safe haven for these animals. But in the meantime, the Open Space with wild horses transforms many who witness it.

Sincerely,

David W. Cramer, Ph.D.

Re: Albuquerque Open Space Perimeter Fencing

The undersigned individuals wish to express their support for the Albuquerque Open Space Fencing. As residents of La Mesa we enjoy the educational and recreational opportunities which the Albuquerque Open Space provides.

Additionally, we believe the fence will help limit access by ATV's which tear up the land. It has been our pleasure to walk the land see the wild horses which are descendents of the Spanish wild horses that have roamed this land for over 400 years ago. What a great lesson in history for both children and adults.

Please continue to fence the Albuquerque Open Space as outlined in your Master Plan.
